

DEPEW WILL BE A POPULAR SENATOR

HIS ELECTION THE CAUSE OF MUCH CONGRATULATION.

The Ablest Man Representing His State Since the Days of Conkling—Democrats Are Not Pleased With His Selection—Belief That He Will Wield Much Influence.

New York, Jan. 13.—[Special].—The election of Chauncey M. Depew to the United States senate, while no doubt creditable to the state of New York, will introduce a new factor into that body. It is admitted that he will be by far the ablest senator the state has had since Roscoe Conkling retired, but whether or not he will exert as great an influence as that statesman remains to be determined. Mr. Depew is a polished speaker, a good tactician, and one who will wield a great personal influence. Whether or not his connection with the great railroad corporations of the country will lessen that influence no one can tell, but it is not probable that his acts affecting corporations will go unquestioned, no matter how disinterested his motives may be.

CHAUNCEY M. DEPEW.

There is, however, general satisfaction that a man of commanding ability will once more represent the chief state in the union in the United States senate. No matter what position Mr. Depew may take on any question of public concern his opinions will be entitled to and will receive consideration from his associates and the country at large.

The democrats are sneering, as is their custom, at the selection, and allude to it as the choice of another member of the millionaires' club. It is true that the new senator is wealthy, but no one lays less store by money than he. He is one of the most democratic of men, a free liver and a jolly fellow in more ways than one. That he will be the most universally popular senator in Washington does not admit of a doubt.

Lexington, K. Y., Jan. 13.—[Special].—Ex-Congressman Wilson positively denies that he has been tendered or has accepted the Yale presidency.

PLANS FOR FILIPINOS.

Time Alone Must Determine the President's Policy.

Washington, D. C., Jan. 13.—President McKinley's Philippine policy, according to his cabinet officers, has undergone no change of late, for the simple reason that his plans in regard to the future of the islands, after the ratification of the treaty of peace, have not been formulated. Last October he developed a Philippine policy only to the extent of deciding it would be impossible to return any or all of the islands to Spain. He so instructed the peace commissioners at Paris, and they carried out his views without alteration.

He did not decide then, nor has he decided yet, that the islands must necessarily become a part of the United States for all time. He became convinced that Spain could not govern the islands under any circumstances, and that the United States must assume their control at least temporarily, and possibly permanently.

To this extent the president's Philippine policy is clearly outlined in the treaty of peace now before the senate. When that treaty is ratified by both countries, and the United States acquires the legal title to the islands, the president will then undertake to find out whether the Filipinos have a government strong enough to control the islands, which few people believe to be possible.

Until it is shown that the natives cannot govern themselves the president will not consider the occupation by the United States as anything but a trust. He believes it will take from now until the meeting of congress in December to ascertain the facts, and he will not commit himself to any radical policy in any direction until he has a better knowledge of the situation than at present, and for this purpose when the treaty is ratified he will recommend to congress the creation of a commission to study the situation on the ground as a basis of the policy yet to be formulated.

McLean-Logan Nuptials Were Solemnized There Last Wednesday

On Wednesday last at the home of J. Z. McLean in Johnstown, was solemnized the marriage of Alexander McLean and Miss Sarah Logan. The ceremony was performed by Rev. S. G. Huey in the presence of a number of friends and acquaintances. A sumptuous wedding dinner was served. The esteem in which the young couple are held was manifested by the useful and elegant presents which they received. Both are well and favorably known. They will make their future home in the west, whither they will take with them the best wishes of many friends.

ADJOURN WITHOUT CONTRACT AWARD

BIDDERS FOR THE JAIL WERE DISAPPOINTED.

Chairman Bailey Was Sick and the Matter Was Postponed Till the February Meeting—Six Firms Had Proposals In—Want to Know About Salaries.

Members of the Rock county board of supervisors adjourned at 2:30 o'clock this afternoon till Thursday, February 2 at 2 o'clock.

The board did not award the contract for the new jail on account of the illness of Chairman T. B. Bailey, of the building committee, who was taken suddenly ill this morning at his home in Beloit.

The six representatives here in the interest of outside jail building firms are anything but pleased at this delay. The firms having plans to offer are as follows:

- Wagner Iron Works, Milwaukee, Wis.
- Pauley Jail Building company, St. Louis, Mo.
- Philip Dean, Appleton, Wis.
- Champion Iron Works, Kenton, Ohio.
- Portsmouth Jail company, Portsmouth, Ohio.
- J. G. Kirsh & Co., Milwaukee, Wis.

The plans that are substituted by each of the above firms will give the county a bastion that will be a complete structure.

Each firm have paid the strictest attention to sanitary plans, and all favor a sheriff's residence that the best of families would feel proud to possess. The matter of awarding the contract will not be taken under consideration till February 2.

Chairman Simon Smith called the board to order at 9:30 o'clock this morning and a number of reports were read and adopted.

Supervisor Bear offered a resolution, which was adopted, instructing the district attorney to confer with the attorney general of the state in regard to the validity of the act passed by the legislature in 1897, placing the pay of the register of deeds on a salary in place of a fee basis. The county board say they don't know how they stand in this matter.

Supervisor Smith was allowed \$10 for countersigning county orders.

Supervisor Powers offered a resolution which was adopted which called for a special committee to look into the matter of providing some suitable means of making jail prisoners work.

Supervisors Powers and Miller were appointed as such committee, to report at the next meeting of the board.

FIRE ALMOST DESTROYS A CITY

Bridgewater, N. S., Sustains Losses Aggregating \$1,000,000.

Halifax, N. S., Jan. 13.—The enterprising town of Bridgewater, on the banks of the picturesque La Hare river, was practically wiped out by fire early Thursday morning.

The fire originated in the Opera block and swept Main street on both sides. The burnt district extends over half a mile and includes all the principal business places in the town. The Halifax bank, the Merchants' bank and the Dominion savings bank were all destroyed. The fire started about 1 a. m., and four hours later the whole business portion was in flames.

Telephone and telephone lines are down and communication is difficult. It is known, however, that at 9 o'clock the fire was still sweeping the town, threatening many of the buildings in the residence district. A strong gale fanned the fire to fury and the firemen were powerless.

The loss will be heavy, probably close to \$1,000,000, and the insurance \$50,000. Only two buildings remain standing in Main street.

Bridgewater is one of the largest commercial towns in Nova Scotia, and is sixty miles from Halifax. Its population is about 4,000.

Will Find the Beef Was Good.

New York, Jan. 13.—The Washington correspondent of the New York Herald wires that the war investigating commission will find in its report to the president that the charges of officers that the beef furnished to the army of invasion of Porto Rico was "embalmed," chemically treated and unfit for use are untrue, and that the meat supply was good. It is said that President McKinley is seriously considering the advisability of relieving Maj.-Gen. Miles from the command of the army as a result of the beef scandal.

TOBACCO MARKET LOOKS PROMISING

GROWERS MAY REAP LARGER PROFIT THAN EVER.

More Ginger Among the Buyers Than Has Hitherto Been Noticed This Year—Seventy-five Per Cent. of the Crop Has Been Contracted For.

According to the Wisconsin Tobacco Reporter, the way matters are shaping now Wisconsin tobacco growers stand to realize more money for their tobacco crop this year than for several years past. The '98 crop sold up to date has brought the farmers at least a cent more per pound than the same amount of the '97 sold for. Taking into account in addition to this the extraordinary yield per acre and the net returns will considerably exceed those of a year ago. The packers who seem anxious to invest their money at the ruling prices will a year from now have tobacco that must be sold from one to two cents higher than the '97 has been bringing to afford any profit in the deal.

The question some dealers are asking themselves is, will they be able to do it? The conditions of trade are no more favorable today than a year ago, but rather the contrary is true. Every cigar leaf growing state was favored this season with a large crop of passable tobacco and it is selling in most of the states at fair prices, too. Packers of Wisconsin lead fairly well on their deals of '97, and this in a measure may account for their anxiety in loading up again this season. It is a notable instance, however, that some of the large handlers of Wisconsin are not as yet identified with the movement thus far in this state.

More ginger has been injected into the buying of the new crop at Edgerton recently than at any time since the movement began. In their anxiety to add to their holdings the buyers have seemingly lost sight of the fact that price cuts a material figure in the transaction. The sales which we quote this week cannot disguise the fact that prices have been crowded up a point or two on previous quotations. The ultimate result of the hurry will doubtless be to lessen the amount of buying. At least it will have the effect of keeping new buyers out of the field notwithstanding good judges claim 75 per cent. of the crop has already been contracted for. The largest transaction in old leaf is the sale of the Echert packing of '97 Vernon county leaf, 1,400 cases, to Bamberger, of Philadelphia.

The movement out of storage points continue large, amounting to 900 cases to all points from this station during the week. Since last report 636 cases of cigar leaf were exported from New York.

FORECAST OF WEATHER

Chicago, Jan. 13.—[Special].—Forecast for Wisconsin: Colder probable rains tonight, Saturday.

MR. BAILEY WAS FORGETFUL

For That Reason the Jail Question Was Delayed This Morning

When the county board of supervisors met in session this morning it was the intention of Chairman Smith to have the jail contract question brought up for discussion at 10:30 o'clock.

Chairman T. B. Bailey, of the building committee, was called on to make the opening address. Just then a queer look of distress came over his face, and it was plain to be seen that he was in trouble. Mr. Bailey stated that he had left Beloit in a hurry, and had forgotten to bring along valuable documents.

The jail question was then allowed to go over till the afternoon session. In the meantime Mr. Bailey made haste to Beloit and secured the necessary documents.

GOMEZ PROMISES CONCERT OF ACTION

CUBANS WILL ASSIST SPANIARDS IN INDUSTRY.

Both Are Equally Interested in Cuba's Prosperity—Mutiny Among American Troops at Manila is Denied—President Has Not Changed His Policy.

Washington, Jan. 13.—[Special].—Advices from Havana indicate that the Spanish residents of Cuba have united in an honest and earnest endeavor to restore the affairs of the island to a peaceful basis. They have made overtures to leading Cubans, and the two have concluded to unite in all matters that will contribute to the industrial regeneration of the country. Those of the planters who have saved anything from the general ruin which long continued war has brought have determined to invest it in such enterprises as may be most needed. In many sections a number have combined—both Spaniards and Cubans—and will use their joint capital in establishing industries that will give employment to large numbers of people and promise a profitable return on the investment. The race prejudice for the most part is confined to the poorer and more ignorant classes. Men of intelligence among both classes understand each other fully. They recognize the fact that their interests are identical, and that the best results can be obtained by a hearty co-operation in all matters that concern the general welfare. These hopeful indications are the occasion for much gratification here, and those best informed as to Cuban conditions apprehend little difficulty in restoring affairs to their proper basis. It is not believed that there will be any serious strife between the resident Spaniards and the Cubans. That heretofore existing has been chiefly fomented by interlopers, who treated the Cubans as their serfs or legitimate prey. There will be little disagreement as long as both classes have equal rights and privileges guaranteed them.

MEETS THE PRESIDENT'S VIEWS

No Truth in the Reports That He Had Changed His Mind.

Washington, Jan. 13.—[Special].—There is no truth whatever in the statements sent out from here to various newspapers throughout the country that President McKinley has changed his mind relative to the expansion features of the peace treaty. Those features were incorporated in the treaty by his express direction, after he had considered the matter in all its bearings. The president heartily approves of every detail of the treaty, as it was signed by the representatives of the two nations in Paris, and will use all legitimate means to secure its ratification.

Interstate Commerce Commission Say They Cannot Prevent Discrimination in Rates.

Washington, Jan. 13.—[Special].—The twelfth annual report of the Interstate Commerce commission was made public today. The commissioners maintain that the law in its present shape cannot be enforced. The little girl carried a doll and seemed perfectly contented with her surroundings. She stated that her parents were unable to care for her, and that she was on her way to Sparta to enter the state home for friendless children.

The complaint is made by one of the Cope brothers, of Chicago, and charges are brought for alleged embezzlement of \$800. OPPOSES EXPANSION

Senator McLaurin, of South Carolina, Objects to Annexing the Philippines.

Washington, Jan. 13.—[Special].—Senator McLaurin, of South Carolina, began a speech against expansion this afternoon. He said he was opposed to expansion because it proposed if the Philippines are annexed to add to our population millions of mongrels the average among them being lower in intelligence and morals than the negroes of South Carolina.

He declared he was against expansion for the reason that entangling quarrels with European nations are bound to occur.

CITY BLOCKED WITH FREIGHT

Not Steamers Enough to Transport Produce to Market from Manitowoc.

The freight blockade which has been forming at Manitowoc for two weeks has assumed gigantic proportions. Over 1,000 cars of flour and grain are waiting for transportation across the lake, and the car ferry is unable to catch up, although it is on the move almost constantly. The F. and P. M. boats Nos. 2 and 5 are still lying at Ludington waiting to be unloaded. There are in Manitowoc 500 cars on the Northwestern railroad, and the Wisconsin Central has about 300 there and 200 at different points near by, waiting for room to get into the city. One cause of the trouble is the winds, which have piled the ice up in banks on the western shore of the lake and filled the harbors on the Michigan side with icebergs of rather good size. The Ann Arbor car ferry No. 1 is now running, and the new ferry, Ann Arbor No. 3, with a capacity of seventy cars, took her first consignment of forty cars today.

Warships Modeled in Paraffin.

By the admiralty's orders perfect models are made in paraffin wax of every new English battleship before it is laid down, and these models are tested in a tank at Haslar. The models are from twelve to twenty-four feet long, and the tank is 400 feet long and twenty feet wide. The models are made of wax because it is a material that does not absorb water or change its weight, so alterations can be easily made. Also the material can be melted up and used again.

EGAN MUST BE CALLED TO ACCOUNT

HIS CONDUCT CENSURED BY ALL ARMY MEN.

Was Guilty of Flagrant Insubordination in Denouncing Gen. Miles—Committee Asks Him to Expunge the Objectionable Language—Charges May Be Preferred Against Him.

Washington, Jan. 13.—[Special].—General Egan's personal vituperation of General Miles is looked upon by the entire army as a military crime, and an act of scandalous insubordination which must not go unpunished. The judge advocate general's department is of the opinion that Egan has been guilty of conduct for which the only sentence is dismissal. The war investigation commission this morning delivered an official copy of Egan's testimony to that gentleman, with a request that he expunge the vituperative parts, declaring that it was not such as ought to have been addressed to the board.

General Wood, military governor of Santiago, was examined today. He testified that the beef was generally good, but the men did not like it.

Practically the entire time of the cabinet meeting today was devoted to Egan's testimony. Members of the cabinet say the entire matter is left in the hands of the president, and secretary of war. It is not known whether a court martial will be ordered. Egan is undecided what to do with the returned testimony. He appears dejected. Gen. Miles still refuses to talk, and will do nothing, though he has the power to order Egan's arrest, until he receives orders from those higher in authority.

A LARGE WHEAT STEAL

Plot to Defraud a Railroad Company Unearthed by La Crosse Detectives.

La Crosse, Wis., Jan. 13.—[Special].—Clever detective work and prompt and decisive action on the part of the Chicago, Milwaukee & St. Paul railway, nipped in the bud a gigantic wheat steal. Twenty-one cars of wheat had been stolen from various points on the Southern Minnesota division, of the Milwaukee road, and diverted from their intended destination; and the gang who engineered the deal would have realized \$15,000.

CORRIGAN A CARDINAL

Good Story of Lord Charles Beresford.

A good story is told of Lord Charles Beresford, during the time Commander Beresford was on the East Indian station. They were cruising off the Ceylon coast, and the hero of the Condor thought he would like a day's shooting, so a boat was put off and landed. Beresford and a Chinese servant, after a weary tramp through the jungle, came to a river; the river emptied itself into the sea three miles distant. His lordship stripped to have a bath, but first asked his servant if there were any alligators in the water. The servant replied in the negative. After a delightful swim in the cool placid water, our plucky sailor landed, and while dressing he asked his servant why there were no alligators in that part of the river. The Chinese replied, "No alligators, sar; they plenty afraid of shark." Tableau.

Depend on Christ.

Reckon on Christ to do His part perfectly. Directly you give, He takes. Directly you will open the door, He enters. Directly you will open the flood gates, He pours in a glorious tide of fullness—fullness of wealth, of power, of joy. The clay has only to be plastic to the hand of a Pallas, the marble has only to be pliant to the chisel of a Michael Angelo, the organ has only to be responsive to the slightest touch of a Handel, the student has only to follow the least hint of a Faraday or a Whewell—and there will be no failure in results. Oh, to be equally susceptible to the molding influences of Christ! We shall not fail in realizing the highest ideal of which we are capable if only we let Him do His work unhindered.—Rev. F. B. Meyer.

The Timing of Births and Deaths.

According to the British Medical Journal, Raseri, who has analyzed 5,474 cases of death and 35,515 of births, where the exact time of day was noted, finds that the maximum number of deaths occur in the early afternoon (2 to 7 p. m.), and the minimum, in the last hours of midnight, whilst the maximum number of births occur in the early hours of morning, and the minimum in the early hours of the afternoon. As regards the cause of this, he points out that the hours of the maximum number of deaths are precisely those when the pulse rate and temperature are at their highest in health, and when there is a febrile exacerbation in illness.

# NEWS FROM OUR NEIGHBORS

THE GAZETTE AGENCY  
W. CLARKE, Manager  
Milton, Wis., Jan. 13, 1899.

Grip prevails here to quite an extent and its visits are not confined to elderly people but all ages and conditions are obliged to entertain this unwelcome intruder. Among those under the care of physicians there are so far as we know none that are in a dangerous condition, the disease yielding to proper treatment readily. The opinion prevails that cold, bright weather retards the ravages of the disease and that warm, soft conditions of the atmosphere tend to increase the number of victims of the pest.

The band gave a concert Tuesday evening that pleased its hearers, interest in the program being excited by the fact that Chas. F. Bingham, the cornet soloist, of Chicago, had kindly consented to take part and introduce his novel specialty of playing two cornets at one and the same time, something never before attempted here and in which Mr. Bingham has no rival. His selections include high class, artistic numbers and catchy songs, his playing not being a trick, but on the contrary a genuine novelty. His renditions are strong, graceful and finished, the tonation being pure and full of pathos, charming the hearer. He plays the primo and secundo parts, balancing them with rare skill and his accent is simply superb. Particularly gratifying to his audience was the selection in which he played the solo and first cornet parts simultaneously with full band accompaniment. In his new venture he has not lost his ability to charm as a soloist and there are few, if any, better performers in the country. The concert was followed by the college social at which Miss Bessie Clarke gave a recitation and Prof. Bingham a cornet solo to the delight of the listeners.

## Clinton

Clinton, Jan. 13.—The grip has made its appearance in this village, and many cases are reported by local physicians. In two or three instances whole families are prostrated. W. W. Dalton is here on a ten days' leave of absence. He has been railroading in Texas and Knoxville, Tenn. Charles A. Bush, a former Clinton boy, was married, Tuesday, to Julia Egan, at Beloit. Charley has hosts of friends here who wish him prosperity and happiness. Arthur Latta, who has been very sick, is reported to be slightly improving. Mrs. S. A. Patchen is very poorly, and seems to be gradually on the decline. She never recovered her former health since the paralytic stroke she suffered last August. The families of Frank and Ed. Rader are down with the grip. Mrs. Marcia Homes returned to her home in Milton, Monday. The installation of the Home Forum officers occurred Tuesday evening. W. A. Mayhew acted as installing officer. There was a fair attendance, good refreshments and all report an enjoyable time. J. Fenton will probably return to Belvidere. C. G. Hamilton has been somewhat under the weather of late. Percy Snyder is having a very serious time with his face and has been unable to attend to his accustomed duties. Ed Stewart is helping him out with his farm work. The Modern Woodmen expect to have an entertainment soon. Mrs. Tuttle has secured the services of an experienced laundryman and will endeavor to give her customers the best class of work. Dr. Covert was recently honored by being appointed a member of the medical staff of St. Luke's hospital, Chicago. The Dr. has for many years enjoyed an enviable reputation abroad. Clinton has a well organized anti-horse thief society, which probably accounts for the fact that it has been a number of years since a horse has been stolen in this section. At an annual meeting held last week the society elected the following officers: President, O. L. Woodward; vice president, E. M. Carpenter; secretary, P. Isham; treasurer, A. W. Shepard; riders, S. G. Lake, M. A. Patchen, D. M. Phillips, L. A. Salsbury, M. Reimer, S. M. Case, J. F. Murray, S. Jones, O. L. Tuttle, F. A. Bell, W. F. Christman, E. F. Vanderlyn, F. Hammond. Mayne Sherwood, of Cedar Rapids, is spending a little time here. C. L. Tuttle and family have moved to town and occupy rooms on Main street.

## La Prairie

La Prairie, Jan. 13.—Lou Sherman met with a sad misfortune with his hogs, either from a very severe disease or from a mysterious poisoning, it is not known which. But within one hour after feeding their usual morning meal, fifteen were dead and the others sick. The herd consisted of fifty very fine hogs. Those that ejected the contents of their stomachs recovered, and at the present time seem to be all right. Mr. Sherman has been using for the past month a feed cooker and had fed them on the morning of the affliction exactly the same as before, making it seem very strange that the illness should strike them so suddenly. Lou Pollock, town treasurer will leave for New Mexico very soon for his health, his sister, Mrs. J. Wright having gone some time previous for the same cause. Charles Burgess, a former resident of this town, is very sick at his bluff street home in Janesville with spinal meningitis. Henry Scott is now employed at the Heddes tobacco warehouse. After this date tax payers who have failed to pay their tax can pay five per cent extra. Few crops of tobacco in this vicinity remain unsold. Many crops have been delivered for a fair price. ## THE DUTY OF MOTHERS.

Daughters Should be Carefully Guided in Early Womanhood.

What suffering frequently results from a mother's ignorance, or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

The following letter from Miss MARIE F. JOHNSON, Centralia, Pa., shows what neglect will do, and tells how Mrs. Pinkham helped her:

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity."

## LATE NEWS BY TELEGRAPH.

## REPORTS THE DANGER OVER.

Gen. Otis Says Situation at Manila Is Much Improved.

## BUSINESS BEING RESUMED.

Natives Are Returning to the City and the People Feel More Secure—Rumors of Foreign Meddling Are Not Confirmed.

Washington, Jan. 13.—The tone of Gen. Otis' latest dispatch from Manila is so optimistic that the military authorities look to an amicable understanding with the insurgents within a short time. Several messages have been received from Gen. Otis. In one of them he expressed the belief that if conditions did not change within the next two or three days all danger of conflict would pass away. Another dispatch received early Thursday morning was made public by the war department. It said:

"Conditions apparently improving. Citizens feel more secure. Many natives returning. City quiet and business active."

Nobody in authority is willing to disclose the character of the knowledge on which the administration bases its belief that Aguinaldo is receiving substantial encouragement from some source unfriendly to the United States. No official of the executive government will confirm the statements that Germany is furnishing this encouragement.

The meddlers, it is believed, are endeavoring to make the administration of American authority in the Philippines so embarrassing that the United States will be glad to withdraw from the islands, leaving them to be gobbled up by a nation friendly to the interests—to put it mildly—of those who are backing Aguinaldo in his defiant course.

## News from Spanish Sources.

Madrid, Jan. 13.—Capt. Gen. Rios cables Gen. Correa, minister of war, that the Visayas islands, including Pampay and the central islands of the Philippine archipelago, are in complete revolt against American authority. The natives, he says, are determined to have independence. Aguinaldo is in high favor at Iloilo; the insurgents in that city declare that they are ready for a battle whenever the Americans wish to attack them, and it is by no means certain that the Luzon natives may not act on the offensive.

## MANY BILLS INTRODUCED.

Indiana's Legislature Settles Down to Business.

Indianapolis, Ind., Jan. 13.—Both branches of the legislature have settled down to business, now that the senatorial race is over, and the members are devoting their time to strictly legislative matters. Short sessions were held in both houses Thursday morning, and both were in the greater part devoted to the introduction of bills.

A bill was introduced by Mr. Canada in the house providing that the supreme court and appellate court might summon co-parties non-resident of Indiana in cases appealed by newspaper notices, instead of by personal service, as is now required. The constitutional rule was suspended and the bill passed.

Mr. Artman introduced a bill for 2-cent railroad fare; Mr. Downey, one aimed at drug-store liquor selling, and requiring the druggist to have a county as well as government license; Mr. Hedgecock, one to tax life-insurance policies on their surrender value; already a bill has been introduced to exempt policies from taxation.

Several committees reported killing one-third of the bills introduced, which now number 150 in the house.

In the senate a bill was introduced by Senator Binkley aimed at the state normal, and giving power to the state board to grant licenses.

Senator Johnson introduced two bills providing penalties against the waste of gas, and authorizing the state oil inspector to repair leaks in gas wells at the owners' expense.

## Czar Cannot Insure Peace.

Berlin, Jan. 13.—In introducing the military bill in the reichstag the minister of war strongly emphasized the necessity for the augmentation of the army, saying that the czar's disarmament manifesto was insufficient as a guarantee of peace. The most powerful sovereign, he said, was unable to alter the existing national conditions, and Germany's existence depended upon her having a strong army.

## Dreadfully Nervous.

GENTS.—I was dreadfully nervous and for relief took your Karl's Clover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. ## Nervous Dyspepsia

To Gain Flesh, to Sleep, Well, to Know What Appetite and Good Digestion Mean.

## MAKE A TEST OF STUART'S DYSPEPSIA TABLETS.

No trouble is more common or more misunderstood than nervous dyspepsia. People having it think their nerves are to blame and are surprised that they are not cured by nerve medicines. The real seat of the mischief is lost sight of. The stomach is the organ to be looked after.

Nervous dyspepsia often do not have any pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every organ. In some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowels are constipated, with headaches; still others are

PROF. HENRY W. BECKER, A. M. troubled with loss of flesh and appetite with accumulations of gas, sour risings and heartburn.

It is safe to say that Stuart's Dyspepsia Tablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headache.

Send for valuable little book on stomach disease by addressing F. A. Stuart Co., Marshall, Mich. All druggists sell full-sized packages at 50 cents. Prof. Henry W. Becker, A. M., the well known religious worker and writer of St. Louis.

E. church; also takes an active part in the work of the Epworth League, and to write on religious and educational topics for several magazines. How he found relief is best told in his own words:

"Some weeks ago my brother heard me say something about indigestion, and taking a box from his pocket said 'Try Stuart's Tablets.' I did, and was promptly relieved. Then I investigated the nature of the tablets and became satisfied that they were made of just the right things and in just the right proportions to aid in the assimilation of food. I heartily endorse them in all respects, and I keep them constantly on hand."

## Eight Negro Miners at Pann.

Panna, Ill., Jan. 13.—In a fight between non-union white miners and negroes in the Springfield mining district several men on both sides are reported to have been badly injured. The fight originated over a white miner taking exceptions to a negro loitering around his home.

## PEACE TREATY DISCUSSED.

First Contest in the Senate at Washington.

## EXECUTIVE SESSION HELD.

Senator Berry's Motion That the Question of Ratification Be Dealt With in Public Was the Subject—No Vote Reached—In the House.

Washington, Jan. 13.—The supporters and opponents of the peace treaty in the senate had their first contest over that document Thursday in executive session. While the debate technically was upon Senator Berry's motion providing for the consideration of the resolution of ratification in open session, the entire question at issue was gone over to a considerable extent. The discussion continued from a few minutes past 1 o'clock until about 5, when the senate adjourned for the day without reaching a vote upon the Berry motion.

There were no set speeches in the usual acceptance of that phrase. It was a running debate, in which Senators Berry, White, Hale, Hoar, Vest and others in opposition to the treaty met Senators Davis, Frye, Teller, Gray and others in advocacy of it. Probably twenty senators spoke, but many of them did little more than ask questions. Still, speeches of some length were made by Messrs. Teller and Frye on the one hand and by Messrs. Hale and Hoar on the other. There were many animated colloquies between senators, and for a time an exceptional degree of feeling was shown.

Senator McMillan, from the committee on commerce, favorably reported to the senate a bill for the construction of two first-class revenue cutters for service on the great lakes, to cost not to exceed \$165,000 each.

## Appropriation Bill Passed.

Washington, Jan. 13.—The house Thursday passed the diplomatic and consular appropriation bill without amendment. During the general debate two set speeches were made against imperialism by Messrs. Carmack and Gaines of Tennessee. The diplomatic and consular is the sixth of the regular appropriation bills to pass the house. Seven budgets yet remain to be acted upon. The bill as passed carries \$1,705,533.

## ATKINSON BILL REFERRED.

Gov. Pingree's Scheme in Hands of a Special Committee.

Lansing, Mich., Jan. 13.—The house has appointed a special committee of five to investigate the expenditure of the \$500,000 war appropriation made at the special session of the legislature last spring. Quartermaster Gen. White reports that \$506,000 was expended, and that the general government is expected to refund about \$400,000.

An attempt was made by the Pingree men Thursday to have the Atkinson railroad tax bill referred to a special committee named in a resolution offered by Representative Cheever, the leader of the Pingree forces. The effort was unsuccessful, and while the Pingree adherents succeeded in keeping it from going to the committee on railroads, which is believed to be very hostile to the measure, they were forced to permit Speaker Adams to name the special committee. Five members of the railroad committee were given places on the special committee, and although Cheever was made chairman, he is in a hopeless minority.

## Dingley is Growing Hotter.

Washington, Jan. 13.—The favorable change in Representative Dingley's condition continues, and he is reported better, with the heretofore dangerous symptoms showing some abatement. At 11 o'clock last night the following statement was made by one of his sons: "Mr. Dingley is resting quietly. Pulse good. If no complications arise he will continue to improve."

## IN JUSTICE TO STIFF

A man named Stiff was elected speaker of the Montana legislature, and an unkind newspaper paragraph at once chronicled the fact that Stiff was probably a fair sample of "the embalmed statesman." This is unjust. Mr. Stiff may be cold, but there is nothing to indicate that he is not straight. He may be grave and solemn, yet not afraid of any undertaking. He may have fits of coughing, yet it is evident that he does not use beer as a cure, as he has never been laid out. Stiff can never be a political acrobat while he remains Stiff. His backbone must be of the right sort, and his upper lip in the proper condition. Nor should the newspapers allow the fact that the Hon. John L. Sullivan said the Hon. James J. Corbett was "a stiff" prejudice them. What the Hon. Mr. Sullivan meant, like enough, was that the Hon. Mr. Corbett was a speaker. Stop poking fun and telling ghost stories about Speaker Stiff. He is the salt of the earth, for "a good name is rather to be chosen than great riches"—and Stiff certainly has the name.

## "LET US HAVE PEACE."

Whitewater Gazette.—The Janesville Gazette started a strong plea for peace in the republican party, which has been widely commented on by the state press. There is always cause for war, let the present administration redeem their pledges to the people and they will deserve and receive the united support of their party. There may be a few bolters and "sore heads" but the majority of the Wisconsin people are ready to sanction the administration if the administration keeps its pledges to the party. As for the politicians, the parties both have more of them than the spoil can feed and whether they love or quarrel it is all one to the majority of the people.

Governor Scofield's message was an able one, and many wise suggestions were therein set forth. The legislature should now proceed to cover the ground as thoroughly as the governor has, and thus leave no cause for criticism by the people.

If the Wisconsin Plumber's association had been composed of real patriots, it would have voted to meet in Havana next year instead of at Milwaukee.

## LOOKING AFTER FOOTBALL

Already the Devotees Are Debating Next Year's Game.

Speaking of the relations between the Wisconsin and Northwestern university elevens, the Chicago Inter Ocean says: "It is not improbable that Wisconsin will meet Northwestern next fall, as she has done in the past, but Northwestern is not hoping for another Thanksgiving game with the Badgers. It has been denied that Wisconsin has already arranged for the last game of the year with Illinois, and Dr. Hollister says there is no feeling at Madison that Northwestern is not worthy of a game. Wisconsin's relation with the purple as far as football is concerned have been the most friendly for several years, and Dr. Hollister feels certain of securing a good date. Michigan is under contract to meet the Northwestern team at Ann Arbor this fall. When the date was arranged for the Evanston game last season Michigan's manager insisted upon a return game and the contracts were signed. The friendship which exists between Professor Stagg and Dr. Hollister is considered assurance that Northwestern will have one of Chicago's best dates, and the only difficulty probable in finishing the schedule desired is expected from Illinois.

## ALL THE CREW GREW FAT.

Predicament of the Company of the Good Bark Zion.

The German bark Zion, which arrived at this port Sunday from Powey, England, brought a rather peculiar cargo. It consisted of 1,800 casks of china clay, but in addition there were on board 300 casks of arsenic. This part of the cargo had a remarkable effect on the crew. The fact that arsenic as well as strychnine helps the formation of adipose tissue when taken into the human system in minute particles is well known, and both drugs have become favorite tonics for convalescents. On board the Zion the men slept near the large array of barrels containing the drug. They were stored in the hold, near the forecastle and partially exposed to the rays of the sun, which streamed in through the open hatch. When only about a week out from port one of the crew mentioned to his messmates that a peculiar and indescribable odor was coming from the casks containing the drug. It was not long after their attention had been called to it that they noticed the same thing, and, strange to say, noticed it all the more forcibly a week later. Several of the German tars became aware of the fact that they were filling out their clothes to a much greater extent than when they shipped. Many others, as days went by, became abnormally stout, in vast contrast to the former slim appearance which many of them presented before the land was left. One man gained, it is said, twenty-five pounds. Others were affected to a less extent. But the aggregate weight put on by the entire crew was little less than 400 pounds. Several of the sailors are known here, and they are said to be scarcely recognizable when contrasted with the old days. The entire sudden taking on of avoirdupois is attributed to vapor, which, generated by the action of the sun on the casks, was inhaled by the seamen as they slept, and acted in precisely the same manner as a tonic in a prescription. Capt. Hammes, who slept aft in the vessel, entirely removed from the arsenic, does not show any effect of the inhalation.—Philadelphia Times.

## PAT'S DISCOVERY.

Found That There Were Two of the Ugly "Rusties."

An amusing incident was witnessed in a menagerie the other day, where a number of the well-known trick mirrors were placed between the cages. An Irishman, after a critical survey of the monkeys, had wandered away from his better-half, and suddenly found himself in front of one of these mirrors. After one glance at his distorted reflection, he rushed back to his wife, who was still watching the antics of the monkeys. "Come away wid ye, Bridget," he exclaimed. "Ov'er a bigger trate than that—the ugliest baste in the show. He's in a little cage in the corner." Bridget offered no objections, and as two or three of the bystanders, who had heard Patsy's remark, were equally anxious to obtain a peep at the "ugliest baste," there was quite a procession to the "little cage in the corner." Patsy, as the original discoverer, secured first place and dragged his wife in front of the mirror. To his astonishment, there were more in the "cage" than he expected. "Begorra, Bridget!" he suddenly exclaimed, "there's a pair av 'em!" To say that Patsy had a lively time of it when some one explained the situation to Bridget would be to put it mildly.

## Light as a Factor in Sugar Production.

Professor Weber of the Ohio State University has made a prolonged study of the effect of light as a factor in sugar production, and his numerous experiments with reference to the influence of light on the sugar contents of plants are of peculiar scientific interest. He has found that plants with a long period of vegetation are not so much affected by climatic changes, location, etc., as those of a short period of vegetation. For the latter, therefore, the conditions named are to be specially cared for in order to secure the product. Higher latitudes are found to be better for sugar production than lower ones, other things being equal, and the proximity of large bodies of water is most favorable to sugar production. The topographical features of the land are also of importance in locating sugar factories in the most convenient place to that of production, in order to insure the greatest success.

## Reciprocity in the Colonies.

Brussels, Jan. 13.—The Belgian foreign office has arranged a provisional agreement with Great Britain, extending reciprocity to the products of the colonies of Ceylon and Lagos, the latter a British protectorate on the bay of Bengal in west Africa. This agreement is tentative and it is expected that it will be but preparatory to a hard-and-fast commercial treaty on the same lines.

## ODD FELLOWS HAVE OCEANS OF JOLLITY

INSTALLATION OF OFFICERS OF  
REBEKAH LODGE NO. 171.

The Ladies Were Surprised With a Banquet Prepared by Their Gentleman Friends—Joint Masquerade Proved an Enjoyable Affair Although the Maskers Were Few.

The installation of the newly elected officers of Rebekah Lodge No. 171 last evening proved a very pleasant affair. While the exercises were in progress the members of Janesville Lodge No. 90, I. O. O. F., made their appearance in the banquet hall, where a feast was spread that was worthy of a king, and the Rebekahs pronounced it perfect. The new officers of Rebekah Lodge, who were installed by Mrs. L. S. Hillabrandt, were:

Past Noble Grand—Mrs. Susan Smith.  
Noble Grand—Mrs. Flora Warner.  
Vice Grand—Mrs. Alice Merrill.  
Recording Secretary—Mrs. Anna Parish.  
Permanent Secretary—Mrs. Josephine Hankey.  
Treasurer—Mrs. Clara Clark.  
Warden—Mrs. A. E. Trow.  
Conductor—Mrs. Minnie Swift.  
Chaplain—Mrs. Nancy Stanton.  
Right Supporter Noble Grand—Mrs. Ella Stout.  
Left Supporter Noble Grand—Mrs. Ida Tucker.  
Right Supporter Vice Grand—Mrs. May Nicholson.  
Left Supporter Vice Grand—Mrs. Lena Knudson.  
Inside Guardian—Mrs. Mary Anderson.  
Outside Guardian—Mrs. Cornelia Stout.

East Side Odd Fellows hall was the scene last evening of one of the most delightful gatherings of the season, it being the annual masquerade ball of the lodge and of America Lodge No. 28 Daughters of Rebekah. The attendance was very large, both lodges being out in full force. But a small number wore masks, however, but that fact did not detract from the enjoyment of those present. When the grand march had been concluded Wm. J. Hemming, as a Zulu, was awarded the first prize for the best gentleman character. The prize was a Dresden candelabra. Miss Ida Settle, as Liberty, was voted the best lady character and received a silver berry spoon. The prizes for the comical characters were won by Miss Martha Poonichen, who received a fruit dish for her excellent characterization of an old maid, and George Winslow, who masqueraded as an organ grinder, with Mrs. Hiller in the character of his wife, received a photo holder.

All the arrangements for the entertainment were excellent, and much credit is due the committee on arrangements, which consisted of Benjamin Flouwright, W. Z. Winbiger and Walter Rice from the Odd Fellows' lodge and Mrs. J. P. Wright, Mrs. C. W. Schwartz, Mrs. M. H. Morse, M. D. Taylor and T. H. Bidwell from the Rebekah lodge.

## EARLY SETTLERS ARE ILL

Thomas Rooney Numbered Among Those Dangerously Afflicted

Thomas Rooney, one of the early settlers of Rock county, who for many years past has resided on a farm near the city limits, in what is known as the Blackhawk district, is dangerously ill. His condition of late has been alarming, and today he showed but little improvement.

Mark Honeysett is still in a serious condition, and his recovery is a matter of much doubt.

Mrs. James Sutherland, who was recently badly scalded, is gradually improving.

## IDLE LABORERS ARE SCARCE

One Firm Are Obligated to Advertise For One Hundred Men

A sign board that attracted its share of attention today is nailed to a North River street pole and reads as follows:

WANTED—100 men to work in the woods D. K. JEFFERS.

Inquiry revealed the fact that this city as yet has not produced many applicants who care to work in the woods. Several men are idle here, but they seem to be of a class that will accept nothing less than the presidency of a bank.

Local leaf tobacco warehouses are furnishing work to many men.

## WHITEHEAD NOT A CANDIDATE

Janesville Man Did Not Want to be on Judiciary Committee

The Milwaukee Sentinel of yesterday gives Senator John M. Whitehead the credit for being a candidate for the chairmanship of the senate judiciary committee. Senator Whitehead was not only not a candidate, but he had requested the caucus not to place him on the judiciary committee even as a member, as the chairmanship of the committee on assessments and taxes will give him all the work that one man can do well.

## MRS. J. P. WATSON DIED THIS MORNING

DEMISE OF A PIONEER RESIDENT.

In Poor Health For the Past Four Years—A Husband And Five Children Survive Her—Was Born in England And Was Sixty-Eight Years of Age.

After an extended illness covering a period of four years, Mrs. John P. Watson died this morning at 6:45 o'clock at her home, 156 Prospect avenue. She suffered but little during her late illness, and passed away as if in perfect slumber.

By Mrs. Watson's death Janesville loses one of her noblest women and one loved by all. Mrs. Watson was one of the pioneer residents of the Bower City, having been here for the past forty-five years. Sixty-eight years ago she was born in Spaulding, Lancashire, England, and on coming to this country came to Wisconsin and settled in Rock county.

Mrs. Watson was married in England, and came to America in 1852, residing in Chicago three years and coming from there to this city.

Besides a devoted husband five children are left, two sons, John H. and W. E. Watson, and three daughters, Mrs. Sue Wilcox, of Chicago, and Mrs. Orion Sutherland and Mrs. Will King, of this city.

The funeral will be held from the Prospect avenue home Sunday afternoon at 2 p. m.; the interment to be in Oak Hill cemetery.

Mrs. Mary Jane Haskell.

She was born in Ennis Killen, Ireland and came to Janesville in 1841.

The funeral will be held from the house, 164 Cherry street, Sunday afternoon at 2 o'clock. Rev. Mr. Woodside will officiate. The burial will be in Oak Hill cemetery.

## WILL NOT TRAVEL WEST

Gov. Scofield Has No Intention of Leaving Madison for the Winter

Madison, Wis. Jan. 13.—The sensational report recently published in a Milwaukee paper to the effect that Gov. Scofield will go to California soon for the winter and leave Lieut. Gov. Stone to run the executive branch of the state government, is declared by the governor to be without foundation. "I have not now, nor have I had the least intention to go to California," said Gov. Scofield today. "I shall not leave Madison until the legislature adjourns, unless something unexpected happens. The story that I shall leave for the winter is without foundation."

Gov. Scofield was in his office yesterday afternoon for the first time since he was taken ill. He came to the capitol yesterday to receive the joint committee of the senate and assembly, but was compelled to return. Today, however, he is feeling much better and was at his office a good share of the day.

## OPENS ITS NEW QUARTERS

Coterie Club Dedicates Its New Rooms With a Dance

The Coterie club never fails to have a good time when its members get together. The formal opening of their new club rooms on North Main street last evening afforded the opportunity for an evening's rare enjoyment, which was improved to the full. Dancing, card playing and other diversions served to while away the hours, and an excellent collation was served as the midnight hour approached. There were about fifty couples present, and a more congenial company has seldom been seen in Janesville.

The new rooms of the club are elegantly fitted, and furnish an admirable resort for the members who may desire to pass an evening away from their homes.

## FASTED FORTY-THREE DAYS

Rev. A. D. Hendrickson Still Holds On And He Feels Fairly Well.

Rev. A. D. Hendrickson, of this city, today passed his forty-third day of fasting, and in general appearance he looks but little different from what he did the first of the week. He still remains rational, and seems to relish the water given him, but no food has passed his lips. Present indications are that he will live for several days yet.

Hendrickson sleeps an unusual number of hours. Codine is given him in tablet form dissolved in water to quiet his nerves.

## NEWS OF PERSONAL NATURE.

Mr. and Mrs. William Farrell and daughter have been visiting in Chicago this week.

Mr. and Mrs. Daniel Wilkins, of Fairmont, Minn., who has been visiting friends in Janesville and vicinity for the last ten days, were unexpectedly summoned to return home at once on account of sickness in their family.

## WAS AN OSTEOPATHIST.

But One Subject Proved Too Much For Him.

"Are you the doctor that makes new bones grow?" asked a man who had waited a long time in the outside office of a leading physician.

"I am an osteopathist," said the doctor, "if that is what you mean."

"A which?"

"I practice osteopathy—the manipulating and mending of broken bones."

"Correct. I guess I've had as many bones broken as the next man, and if you can fix me up good as new I'll be much obliged and pay the bill hansom like-wise."

"All right," said the doctor as he led the way into his private office.

"Just sit down in that chair and relax."

"How?"

"Let your muscles loose. Don't try to keep together. Now go back to your early fancy and tell me every accident that ever happened to you and what result followed."

"Sho! First accident that took me was falling out bed afore I was a year old."

"What was the result?"

"Why, it proved to the folks that I wasn't a fool. 'T'bout a youngster tumbles out of bed or down stairs afore his first year is up he ain't considered bright. I did both—yes, by jiminy cricky, I did."

"And your next accident?" suggested the doctor.

"There ain't no next. There was jest one continued chapter from that on. I broke four ribs trying to fly and dished my collar bone at the same time. When I laid me the colt to water, he ran off and gave me this Roamin nose—ha, ha—and the first time I driv him to harness he kicked over the dasher, and that's when I lost my front teeth. I've had both legs broken, and one arm in three places. This 'ere hole in my shoulder ain't from a bullet—it's where our old cow hooked me for a half day. This bone in my left wrist got mashed in a separator, and four of my fingers was wrenched at the same time. My elbows!"

"Stop!" shouted the doctor, rising hurriedly and bandaging the broken up man his hat. "You've mistaken the place. You want to go to the anatomical museum on the next street and have your skeleton articulated. Good day, sir."—Chicago Times-Herald.

## Looking Into the Future.

"I guess I might as well quit school, papa," said the boy.

"Why, my son?"

"Oh, there ain't any use going, except to be able to help my little boy when I grow up, and if they have changed the way of doing things since you were a boy so that you can't help me now it's likely I'm just wasting my time getting ready to help my little boy."

He got the help he wanted, but it was a good thing he didn't hear what his father had to say about new-fangled schoolbooks after he had gone to bed.—Chicago Post.

## Good Criticism.

Two men in top hats and tails were walking down a street.

"What's your new piece like?"

"I don't yet, m'dear. If the audience weep, I shall call it a drama; if they laugh, I shall advertise it as a farcical comedy."—Pick Me Up.

SANTIAGO'S DEAD-LINE, SHOWING BULLET-MARKED PLACE OF EXECUTION. FROM HARPER'S WEEKLY

Reproduced from Harper's Weekly. By Permission. Copyright, 1899, by Harper & Brothers

It tells its own story, this grim, honey-combed wall of the old arsenal at Santiago. The bullet-holes in the bricks afford some idea of the enormous number of executions which have taken place here during, and probably before the long struggle of the Cubans for freedom. Cuba's best blood was spilled time and again at the base of this gray wall from the beginning of the battle for independence. The Spaniards have always given military offenders, and all others the shortest kind of shrift, and have found it much more convenient to execute their prisoners in the way shown in our illustration, taken from this week's issue of HARPER'S WEEKLY. It seems from the height of the majority of the bullet-marks that in former executions the prisoners stood erect instead of kneeling. But perhaps it is only another example of Spanish marksmanship.

## CONVENTION GETS TO WORK.

United Mine Workers Have a Stormy Session.

PEARCE'S BOOKS MUTILATED.

Desperate Attempt Made to Prevent Investigation of the Affairs of the Organization—Delegates from the Various States Given Their Seats.

Pittsburg, Pa., Jan. 13.—President M. D. Hatchford, by the vigorous use of his gavel on two occasions Thursday, undoubtedly prevented a stormy time in the convention of the United Mine Workers. Early in the morning the rumor started that in the absence of Secretary Pearce his room had been entered and seventeen leaves of his ledger cut out. By the liberal use of ink the records on eighty other pages had been destroyed. The matter caused intense excitement among the delegates when it became known.

At the afternoon session President Hatchford announced that the first order of business was the receiving of the report of the investigating committee. Fred Dilcher of Ohio, the largest man in the convention, rose on the stage, and his face indicating anger, demanded to know if it was possible for an investigating committee to make a full report in view of the fact that seventeen pages of Secretary Pearce's ledger had been stolen. A member of the committee replied that the committee was able to report.

It is hard to understand the motive of the mutilation of the books, for the reason that the investigating committee had already gone over them, and there were four copies of the entries in the hands of as many men. In addition, the index indicated what had been extracted, and Mr. Pearce was able to make a duplicate.

The investigating committee, through its secretary, John Fahy, made full report to the convention of the examination of credentials. On the report Illinois gets 245 votes; Ohio, 139; Pennsylvania, 172; Indiana, 70; West Virginia, 7; Tennessee, 4; Iowa, 16; Kentucky, 17; Alabama, 25; Indian Territory, 10; Arkansas, 10; Kansas, 5. There were referred to the convention four delegates from Pennsylvania, six from Iowa, three from Kentucky, three from Illinois, two from Indiana and one from Alabama.

On motion of John M. Hunter of Illinois, the report of the committee was received and the same motion carried with it the seating of the delegates whose credentials had been questioned. The committee was continued in order that credentials not considered might be passed upon.

The first business today is the election of officers. There is now no doubt that John Mitchell of Illinois will be the next chief executive. Patrick Dolan of Pittsburg is his sole opponent.

Mr. S. A. Fackler, editor of the Michigan (Fla.) Hustler, with his wife and children, suffered terribly from la grippe. One Minute Cough Cure was the only remedy that helped them. It acted quickly. Thousands of others use this remedy as a specific for la grippe, and its exhausting after effects. Never fails. People's Drug Co., corner Main and Milwaukee streets.

Apples \$3 per barrel, plenty of them. Sanborn.

## ILLINOIS LEGISLATURE.

Little Business of Importance Transacted Thursday.

Springfield, Ill., Jan. 13.—The democrats got through the first resolution for paying Illinois soldiers for the time between their call to Springfield last spring and the day they were mustered into service. Representative Tippitt put it in and had it passed. Representative Heimberger later offered such a bill, but on D. E. Sullivan's point of order Speaker Sherman had to rule the bill out. This was the only incident of importance in the house.

The senate adopted a resolution, the purpose of which is to shut out lobbyists, book agents and solicitors. A communication was received from Amos M. Moore, president of the Illinois Farmers' Institute, asking for liberal appropriations for the Illinois Agricultural college. The bill making appropriation for the payment of the employees in the general assembly was advanced to third reading, but the appropriation bill for the incidental expenses in the session was referred to committee. Bills were introduced as follows: By Mr. Townsend, to permit assessment insurance companies to reorganize and do an old line insurance business; by Mr. Humphrey, providing that all teachers' examinations be held under direction of the state board of education; by Mr. Campbell, providing for the licensing of public accountants.

Mr. Wilson will accept. The salary is to be \$25,000 a year.

Wisconsin Lawmakers Go Home.

Madison, Wis., Jan. 13.—An adjournment was taken by the legislature Thursday until Tuesday morning. Nearly all the legislators have gone to their homes, and there is a lull in the senatorial contest. The candidates will spend part of the time here, and will all be back Monday or Tuesday prepared for the final struggle in the senatorial caucus Tuesday night.

The destruction of the railroad pass system, root and branch, and also of corrupt legislative lobbying, were the chief recommendations in Gov. Scofield's message to the legislature.

How the Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or a grippe to result in that dangerous disease. It is the best remedy in the world for bad colds or la grippe. Every bottle warranted. For sale by Peoples Drug Co., corner Main and Milwaukee streets.

La Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days by the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting down." ## CALLS MILES A LIAR.

Commissary General Bitterly Attacks Chief of Army.

Washington, Jan. 13.—Most vigorous and sensational testimony was given before the war investigating commission Thursday by Commissary General Eagan, who, appearing unexpectedly to meet the allegations against the beef issued during the war, vigorously arraigned Maj.-Gen. Miles, commanding the army. He denied numerous statements of Gen. Miles, charged that the latter's testimony constituted severe reflections, and referred to him as reflections on the commanding general's of the expeditions and referred to him as "this same commanding general, Nelson A. Miles," and said whoever called the beef furnished "embalmed beef" was a liar.

Later on in his testimony Gen. Eagan called Maj.-Gen. Miles a "liar, who lied in his throat, lied in his heart, lied in every part of his body," who perpetuated a gross scandal, and who should be drummed out of the service and imprisoned, "and should be avoided by every honest man and barred by every club." He characterized Gen. Miles' interviews as "flith."

Washington, Jan. 13.—Gen. Miles refused to make any further statement in reply to the denunciation by the head of the commissary department.

## DISPUTE ON PRIZE MONEY.

Admirals and Naval Heroes Will Not Receive It Soon, if at All.

Washington, Jan. 13.—It is the opinion of the best authorities in congress that Admirals Sampson and Schley and the various other heroes of Santiago entitled to a portion of the prize money will not receive it very soon and may not get it at all. It is estimated that the officers and sailors who participated in the Santiago fight are entitled to about \$2,000,000 prize money under the laws. Congress must appropriate the sum, however, before the claims can be paid. Chairman Boutelle of the navy committee is opposed to the payment of prize money. Some members of the committee believe the claimants should go to the Court of Claims, and so the matter is blocked with little prospect of action very soon.

**Captured a Desperate Criminal.**  
Meriden, Miss., Jan. 13.—The post-office at Enterprise, Miss., was blown open with dynamite Monday night and the burglar escaped after obtaining a considerable amount of stamps, money orders and cash. The police are now certain that the robbery was committed by Thrasher Meade, one of the most desperate criminals in the country. Meade was arrested in Mobile, and taken to Enterprise, but not until after a desperate fight with the officers. A large quantity of postage stamps, blank money orders and \$1,138 in cash stolen from the safe at the Enterprise postoffice were recovered.

**Thousands Are Overtaken.**  
New York, Jan. 13.—A letter received by Stephen E. Barton, chairman of the Cuban relief committee, from Mr. Warner, recently sent to the Sancti Spiritus district in Cuba, says there are 7,631 destitute women and children in the town, with 1,392 men to provide for them, more than half of whom are too sick and weak to even help themselves. "The condition of the people in the little villages and country," he says, "is even worse than in the city."

**To Visit Isle of Pines.**  
Washington, Jan. 13.—Under instructions from Secretary Alger Col. F. J. Hecker of the quartermaster's department will proceed to the Isle of Pines to make a careful investigation of the island's conditions. Secretary Alger said that the department had very little information concerning the Isle of Pines, upon which Col. Hecker was expected to take a complete report.

**La Bourgogne Is Blamed.**  
London, Jan. 13.—The admiralty court found that la Bourgogne of the Compagnie Generale Transatlantique was alone to blame for the collision with the British ship Cromartyshire, July 4, near Sable Island, off the coast of Nova Scotia, resulting in the sinking of the steamer and the loss of over 500 lives.

**Bare Allen Minors.**  
Victoria, B. C., Jan. 13.—The government has introduced a measure providing for the amendment of the placer mining act so that no one who is not a British subject shall take out a free mineral license, and that no company shall have a license unless incorporated or registered under laws of this province.

It doubles the joy of the human heart brightens body and brain. That's what Rocky Mountain Tea will do. 35 cents. Smith's Pharmacy, Kodak Agents.

## WINNER OWNS PHOTOGRAPH.

One of the queerest lawsuits ever placed on record is now being tried in New Haven, Conn. To recover a photograph of herself Miss Gertrude Mills is suing her aunt for its possession, the aunt claiming in her turn that it was freely given her and therefore remains her property. To this statement Miss Mills has another word to say. "I want it distinctly stated that I never gave her this picture and she had no business with it. The suit I have begun is a replevin suit and damages are placed at \$5. The picture is worth possibly 50 cents. I have several times asked my aunt to give me the picture and she has as often refused. Now I propose to see if the law will not protect my interests and give me this photograph."

MISS GERTRUDE MILLS.

Miss Mills is a bright, prepossessing young woman of 19 or 20 years of age. Her father, James Mills, is proprietor of a restaurant at 112 State street and her aunt runs a rival restaurant across the street. This is one of the oddest suits ever brought before a Connecticut court. Both sides have hired counsel and propose to fight the case to the bitter end. The trial will come up some time this week before Justice A. C. McMathewson. Back of the suit is a long story of family disagreements. Several times there have been suits for slander entered by the parties to this case, none of which has ever come to trial.

## A WOMAN WILL HOLD REINS.

The many visitors to Colorado Springs who have enjoyed the delightful experience of riding through the beautiful vicinity on the top of the coach driven and owned by Mrs. G. P. Greenfield, will doubtless be charmed to repeat the pleasurable excitement in Paris. One of the American attractions of the Paris exposition of 1900 will be Mrs. G. P. Greenfield's driving of a genuine old-fashioned six-in-hand stage coach about the grounds of the exposition. Her reputation for skill as a manipulator of the reins has brought her this contract, which will net her \$5,000 for the season's work. It is expected that there will be a tremendous rush to the exposition by residents of the United States, and particularly from the states east of the Mississippi river. The people of this section have read and been told all their lives of the thrilling adventures which fell to the pioneers who went west in '40s and

**MRS. G. P. GREENFIELD.**  
covered the vast expanse of territory between the father of waters and the Rockies in a six-in-hand. They have dreamed of the experience, and have longed to realize it, but the stage lines of the country are becoming few, while in other countries the thrilling experience of a ride behind six sturdy beasts of the plain is still more difficult to obtain.

## Not a Safe Swimming Pool.

An English officer whose ship was stationed off the coast of Ceylon went for a day's shooting along the coast, accompanied by a native attendant well acquainted with the country. Coming to a particularly inviting river, the officer resolved to have a bath, and asked the native to show him a place where there were no alligators. The native took him to a pool close to the estuary. The officer thoroughly enjoyed his dip, and while drying himself he asked his guide why there were never any alligators in that pool. "Because, sar," promptly replied the Cingalese, "they plenty 'fraid of shark."

## Splendid Piano for the Czarina.

Czar Alexander sent to Stuttgart for a suitable present for the empress on the occasion of her recent birthday celebration. He selected an ornate upright piano for her boudoir. The case is in the richest Louis XVI. style, and the front board is jeweled with brilliant gems. The black keys are made of real ebony and the white ones are covered with mother of pearl. German experts say it is the most costly and exquisite instrument of its kind ever made.

**Fusion Forces Firm.**  
Lincoln, Neb., Jan. 13.—Balloting for United States senator will begin at the first joint session of the house and senate next Tuesday. The populist leaders expect Senator Allen will reach Lincoln by that time, and it is asserted that the senator will be able to hold the fusion forces solid and prevent them from scattering to the republican dates.

**Maple City Self-Washing Soap** works perfectly in hard water. It bleaches white clothes, and sets fast colors.

**Adoption of Arabic Numerals.**  
It is one of the curiosities in the history of our mental development that the cumbersome Roman numerals held their ground so long after the introduction of the so-called Arabic, or more properly the Indian symbols. The earliest appearance of the latter in Europe has been traced to a translation of Ptolemy, written in Spain in 1380. In 1299 the bankers of Florence were bidden to use them, and the University of Padua decreed that their stationers should mark his price list "non per cifras, sed per litteras claras"—not in your new-fangled cyphers, but in good clear old Roman. Chaucer refers in 1375 in the "Book of the Duchess" to "the figures new." The earliest example of an Arabic monumental date in this country occurs on a brass plate in the Church of Ware, commemorating the death of Ellen Wood, in 1454; the first English printed book in which the figures appear in Caxton's "Myrrour or Image of the World," in 1480. Down to the early part of the sixteenth century the college accounts of the English universities were kept in Roman numerals.

## Takes Up Affairs of Indians.

**Dairymen's Convention Ends.**  
Galesburg, Ill., Jan. 13.—The dairymen's state convention closed Thursday. G. H. Gurler, Edelstein, was elected president. Resolutions were adopted asking the legislature to appropriate \$150,000 for the special needs of the state university and appoint a state dairy commissioner, with an appropriation of \$10,000 for expenses and salary.

### BRIEF BITS OF HUMOR.

**The Proper Reference.**  
 The lady who presided at the desk at which the "Answers to Female Correspondents" were written was indisposed, and the sporting editor, who thought he knew it all, boldly undertook to write out the answers correctly. The first one stumped him, and he appeared at the city editor's desk with a troubled expression upon his face and the query slip in his hand.  
 "I'm out in the first round," he announced. "Here's a female who wants to know what the coming winter style of coats will be."  
 "Boas?" answered the city editor.  
 "Don't know anything about 'em. Ask the snake editor."—Cincinnati Enquirer.

**Parasitism.**  
 "What are you making so much disturbance for?" inquired Aguinardo's friend.  
 "My dear fellow, you are not keeping up with the pace of civilization. You don't appreciate the value of advertising. I don't propose to go into the United States along with the bunch as merely one of the natives. I'm going to be a deposed potentate, who can hold his own in society with any ex-queen who ever emigrated."—Washington Star.

**Altogether Too Short.**  
 They were discussing the clubwoman of advanced ideas.  
 "I suppose," said one, "that you regard her as the woman of the hour."  
 "The woman of the hour!" exclaimed the other. "Why, my dear sir, if you had ever heard her talk you would realize that 'woman of the hour' doesn't give her half enough latitude. She is nothing less than the woman of the day."—Chicago Post.

**A Suitable Dog.**  
 Lady—I wish to select a pet dog.  
 Dealer—Live in the city, I suppose, mum?  
 "Yes, I live in a flat."  
 "Then I would advise an Italian greyhound, mum. No matter how much you feed a greyhound he allers stays narrer."—New York Weekly.

**She Lost and Won.**  
 Her Mother—I saw him kiss you. I am terribly shocked! I did not for a moment imagine he would dare take such a liberty.  
 Herself—Nor did I, ma. In fact, I bet him he daren't!—Rehoboth Sunday Herald.

**Not Always.**  
 Jones—Oh, well, I suppose we must take things as they come?  
 Smith—Well, I should advise you not to if the "things" happen to be scarlet fever, smallpox, typhoid or brickbats.—Alls. Slinger.

**Learning Science.**  
 "Science has now," said the teacher of the chemistry class, "found some way of utilizing every particle of the corn plant with the exception of the outer portion of the stalk. That is practically a waste product as yet."  
 "I guess you never saw a cornstalk fiddle," remarked a farmer's boy in the class. —Chicago Tribune.

**It Worried Him.**  
 Mr. Bloggs—You see, my dear, my salary is small and I am not able to save much. I am continually troubled with the thought that if I should die suddenly—  
 Mrs. Bloggs—Oh, don't bother about that, Henry. You know, I've got my old black silk dress that's nearly as good as new. —New York World.

**GRANDPAPA.**  
 Do you remember when you sighed, "We never mention grandpapa!" And all reply to me, "denied." About this same lost grandpapa? I pictured him a pirate king Or some bold brigand on the land, A brave up to our guns, And so perhaps could understand "We never mention grandpapa!"

You shuddered when I asked his name. You would not speak of grandpapa. Your eyes said plainly, "I disclaim All reference to grandpapa!" You tried to hint your father's sire— Was quite too dreadful for inquiry. Indeed I seemed to pique your ire, For your reply was almost fiery, "We never mention grandpapa!"

Could he have been a peccant peer, This all mysterious grandpapa, Who had to fly this hemisphere For lands that knew not grandpapa? Could he have been a gambler base Who rightly earned the widow's curse, And oceans cruised to weep apace? No, no! These words meant something worse— "We never mention grandpapa!"

Could he have caught the judge's eye, This reckless, robbing grandpapa, Have done a bit upon the sly With bills on friends of grandpapa? Or rotten ships have sent to sea, Or weapons sold to foreign foe? Or pulled a horse? Your speech to me Brought—his neighbor "Yes" or "No," "We never mention grandpapa!"

I had a mind all prone to find The facts about your grandpapa. I trust you will not deem unkind The search I made for grandpapa. I've got the record of his life— Vents not on me your wrath in vials— Briefly he used the cat's meat knife Not fifty yards from Seven Dials. And so I mention grandpapa To ask if you'll become my wife! And in our must be household strife I'll never mention grandpapa! —Punch.

**The Main Thing.**  
 American—Was it Sampson or Schley who sunk your fleet?  
 Don—Give it up. But I know we were sunk. —Philadelphia North American.

**Penetlings.**  
 It is easy enough to manage a wife, provided she isn't yours.

All the world may love a lover, but all the world hates a man who wants to borrow money.

You can't offend a 14-year-old girl by estimating her age two years too high.

"I am greatly indebted to you!" is a polite remark that a great many men could truthfully make to the grocer and the provision dealer.

Nobody ever tells you what a clairvoyant has prophesied without adding, "Of course, you know I don't ever take the least stock in what a clairvoyant says."

The girl who leaves the point of a pin sticking out of her belt behind does not deserve to be hugged.

It is generally safe to say that the man who hears the clock strike at 3 o'clock every night isn't successful in his business. —Somerville Journal.

**Why He Was Positive.**

Western Editor—Your idea is original, but it would be impossible to carry it out.

New Reporter—Nothing is impossible to me.

Western Editor—Are you sure of that?

New Reporter—Certainly. Didn't I tell you that I was once employed on a yellow journal in the east? —Chicago News.

**Legal Advice Wanted.**

"Well, prisoner, what have you got to say for yourself?"  
 "I don't know, your honor. What would you say?" —New York Journal.

**Something Easy.**

"What did your wife say to you when you got home from the club at such an unearthly hour this morning?"

"Oh, ask me something easy."

"What would you call something easy?"

"Well, you might ask me what she failed to say." —Chicago Post.
